

Integrated Second Cycle
Master of Science Program in

PHARMACY

FROM SCIENCE TO SAFE CARE

BUILD A PROFESSION WITH IMPACT

**Not just
studying science.
*Training to
master it.***

For those who think with precision

Pharmacy is a science-driven profession built on accuracy, responsibility, and control. It is about understanding substances, developing pharmaceutical products, ensuring quality, and protecting safe use through evidence, standards, and professional judgment.

At WBU, you do not wait until graduation to experience the profession. You build practical skills, laboratory confidence, and professional discipline throughout your studies.

Why Pharmacy at WBU?

• Real Skills from the First Years

Work in modern, well-equipped laboratories and gain hands-on experience in biochemistry, molecular biology, physiology, anatomy, histology, and pharmaceutical sciences.

• The Only English-Taught Pharmacy Program in Albania

WBU offers the only Pharmacy program in Albania delivered entirely in English, giving students access to international scientific resources, mobility, and global career preparation.

• Practice That Builds Confidence

The program includes 400 hours of professional practice in the final years through structured internships in community pharmacies, hospital pharmacies, pharmaceutical companies, and other healthcare settings.

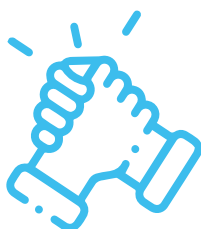

• International Outlook

The program is aligned with EU directives for pharmaceutical education and includes Erasmus+ mobility opportunities with partner universities across Europe.

• Research & Innovation

Students develop scientific and research skills through laboratory training and exposure to modern developments in pharmaceutical sciences throughout the program.

• Support for the Best

Merit-based scholarships can cover up to 100% of tuition fees, rewarding academic performance, engagement, and leadership potential.

A 5-year academic journey designed for professional mastery

The curriculum moves step by step from scientific foundations to advanced pharmaceutical expertise, combining theory, laboratory training, professional practice, and research.

YEARS 1-2

Build the Foundations

Chemistry, Biology & Genetics, Anatomy & Histology, Biophysics, Biochemistry, Microbiology, Physiology, Biostatistics, Ethics, Communication Science, Latin and professional terminology.

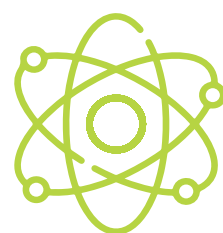

You build the scientific language of Pharmacy.

Enter the Core of Pharmaceutical Sciences

Pharmacology, Toxicology, Pharmacognosy, Pharmaceutical Chemistry, Pharmaceutical Technology, Pharmaceutical Analysis, Clinical Pharmacology, Biopharmacy, Pharmacokinetics, Nutrition Sciences, Pharmaceutical Legislation and Ethics.

You learn how products are developed, analyzed, controlled, and applied.

YEARS 3-4

YEAR 5

Specialization, Practice & Thesis

Professional Practice I & II, Scientific Research Methodology, Cosmetic Technology, Pharmacogenomics, Pharmaceutical Biotechnology, Pharmaceutical Management and Marketing, Hospital Pharmacy, Diploma Thesis.

You graduate with applied experience and a clear professional direction.

Student Testimonial

Studying Pharmacy in English and learning from academic staff with international experience has been a highly motivating experience. The supportive environment and close interaction with professors are helping me build a strong foundation for my future career as a pharmacist.

CURRENT PHARMACY STUDENT

Career Opportunities

Pharmacy graduates can build careers across multiple high-demand professional areas:

- Community Pharmacy
- Clinical Pharmacy
- Pharmaceutical Industry & Technology
- Quality Assurance & Quality Control
- Regulatory Affairs
- Drug Safety
- Pharmaceutical Biotechnology
- Research & Development

Why Parents Trust WBU

- 5-year Integrated Master of Science program
- 100% English-taught curriculum
- EU-aligned pharmaceutical education
- 400 hours of professional practice
- Modern laboratory infrastructure
- Academic mentorship from qualified staff
- Erasmus+ and international mobility opportunities
- Scholarships and financial support
- Licensing and certification guidance
- Clear professional career pathways

Parent Testimonial

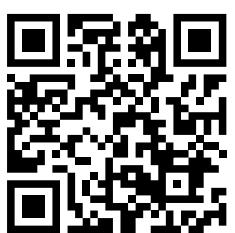

“A structured 5-year program, strong practical training, and international standards give us confidence that this is a secure and globally recognized career path.”

Parent of a Pharmacy Student

Student Life & Campus

Life at WBU goes beyond lectures. Students become part of a modern, international academic environment with laboratories, student spaces, research activities, mobility opportunities, and a campus culture built around collaboration, confidence, and professional growth.
